the toothpick factory in Canton, over one hundred cords of poplar were hauled for its use this season. The poplar was cut into lengths of machines' wood, it is said, make toothpicks a minute.

The girl being asked if she had not once engaged to "a party by the name of Jackson, who was at the time student, haughtily replied, "I remember the circumstance perfectly, but not certain about the name."

The man was shot through the body during the war. The bullet on its way fully took along a gold pen and silver pen-case, and left them somewhere in the body in a very scattered position. As he lay on the ground, he saw a

The local editor of a Jacksonville paper says he is an item to the effect that "Winter lingering in the lap of Spring," but managing editor cut it out. He said the date was good enough, and original, and all that sort of thing, but it would not publish, because the high moral of the paper had to be maintained down full of seminary girls.

It is said that whenever an applicant in a situation as brakeman appears at the office of the Michigan Central Railroad, an official shouts up through the speaking tube and makes the inquiry: "Has the brakeman killed by lately?"

It is said that the applicant suddenly concludes that he is not entirely fitted the situation, and shrewly retires.

FORTUNE-TELLING—ITS CONSEQUENCES.—At Greenville, Miss., *Three times* this week sums up a fortune-telling case in Mississippi: Henry Barlow having had fortune told, it was revealed to him that Louis Harris was to kill him. Barlow was to be undertaken to thwart design, and announced that he would kill Harris; then Louis Harris lay for Henry Barlow and fetched him with a shot of buck-shot. Louis having thus punished his justification, was released.

FOR SALE

ON MOST FAVORABLE TERMS
BY
S. S. SPEAR,
MAIN ST., SOUTH WEYMOUTH
Sole Agent for Weymouth and adjoining towns.
The attention of Manufacturers is called to
NEW MEDIUM MACHINES, which is a SU-
RIOR Machine for Leather or heavy Cloth work,
for SPEED.
Dealers in Sewing Machines furnished with
Singer at Wholesale Prices.
OLD MACHINES TAKEN IN EXCHANGE
FOR NEW, and for sale or to let, at low rates.
We have on hand the Wheeler & Wilson, Grover

In recommending the Singer Machine, it is useless to say that it is the best Machine in the world, because all Sewing Machine Companies say that to the people of the World, which it is, and they are right. But we prefer to let the Singer Machine speak for itself.

The return of sales of the different first class machines, for the year 1870, shows that the Singer Machine sold more than any other, 44,000, and more than any other company, and about one fourth of all the first class sewing machines sold.

NOTICE.—Any other persons in this territory, representing themselves as agents for the Singer Sewing Machine, without the AUTHORITY from the Singer Manufacturing Co.

Facts and Figures

Greece is being rapidly wiped out. Six cotton factories hum in Alabama. Blue sunshades lined with white are repulsive to guests. The gamblers in San Francisco wear masks while dealing. Memphis, Tenn., puts a tax of \$8.50 on every lively stable in the city. Knu-nu-Semee is what a Troy politician calls the Indian in front of his store.

What is the difference between Johnny Horner and a printer? Johnny loved pie, and a printer don't.

The man who by mistake dressed his hair with croton oil made his new wig very comfortable and becoming.

The Saginaw (Mich.) valley produced during the last five years 2,511,269,719 feet of lumber and \$,028,915 barrels of salt.

It is asserted that since the introduc-

The Delaware and Schuylkill Rivers, the fine flavor of the shad caught in them has greatly deteriorated.

"Maggie Mitchell" is forty years of age, and has been on the singles' average since 1878. She married Mr. Paddeck in 1868, after a fourteen years' courtship, and has two children.

A Kansas crack marksman was lately acquitted on charge of assault with intent to kill by showing in the back yard that if he had fired at the man intended to kill him, he would surely have done it.

There are 216 cadets at the U. S. Naval Academy, 39 of whom were appointed by the President, 4 are naval aviators, 3, Japanese, 1, from the navy, 1 from the U. S. Colombia, and 169 from the

"Fred," said a father to his son, "I hear that you and your wife quarrel and wrangle every day. 'Whoever told you that, father, was totally mistaken: my wife and I haven't spoken to one another for a month.'"

In Massachusetts, recently, there was a wedding in which the bridegroom, a widower of nearly seventy, married a lady

It would be no great slander, says Mr. Pouffe, a Parisian theatrical manager on the witness stand, to write of an actress that she was unlearned, or of a judge that he was badly-legged; but supposing one were to call the judge unlearned, and the actress badly-legged, there would be the sting.

A gentleman visited a theatre at Danielsonville, Ct., the other night, in company with a young lady, and unconsciously seated himself directly in front of his wife, who, not relishing the situation, proceeded to take down the young lady's back hair, and remove sundry articles of jewelry and wearing apparel from her person, without the formality of an introduction. It is not stated who was the wife's escort.

Mr. James Pendlebury, who lives in Cambridgeport, while lately cleaning out an ash pit in the house he occupied, found a quantity of human bones in the ashes, together with a knife, a razor, some buttons and other articles, which had the appearance of having been exposed to fire. About the same time he discovered more human bones buried in the garden adjoining the house. He has rented the house for about a year.

A WISE SPOUSE.—A lady in New York, of French parentage, bright, witty, and good, became the wife of a gentleman whose business called him to Paris regularly every summer. In his youth his pace had been rapid, and the lady's relatives gave many shakes of the head in addition to the marriage. He

held when talking to her, told her very frankly that he had been of naughty habits, but promised to be proper. And he made a very good husband. On each return from Paris he brought her some nice little present—sometimes a bonnet, sometimes a dozen of Alexandre's, sometimes a dress. But on this, his eighth return, he surprised her by placing in her hands a magnificent lace shawl, the cost of which could not have been less than seven or eight

hundred dollars. Well might her bright eyes sparkle, as they did, over the exquisite gossamer-like gift. Putting an arm tenderly around his neck and giving him a soft, sweet kiss, she said: "Ah, what a good, kind husband you are to bring me such a beautiful present! 'But, 'Charley dear,' (with a roguish smile), 'how bad you must have been this last time!'" She knew him!

A CRUEL "SELL."—The Bangor (Maine) *Whig* says a thirsty fellow entered a meat shop on the East side a day or two since, and, approaching one of the proprietors in a mysterious manner, asked if he could get something to drink there. He was answered in the affirmative, and told that the firm had some splendid ale on tap. The stranger's eyes glistened, and his mouth watered when he was told to go to the back

he of the cleaver, after a trip to the shop, returned with a big mug filled with clear, amber-colored fluid. "Drink quick; the police may be in at any moment," cautioned the meat man, and the stranger, hastily following the advice, swallowed a couple mouthfuls of the liquid. "The scene that ensued" can best be imagined when we state that the "ale" was old beef-pickle, as salt as the Dead Sea, with a "body" unequalled by

COSTLY CHURCH MUSIC.—Mr. Spurgeon and Bishop Littlejohn think alike about the extravagant sums paid by the Protestant churches for music. The bishop stated recently that one church in his diocese paid more money for music last year than all the churches combined paid for missions. And Spurgeon, in the course of a recent sermon, "came down" on those fashionable congregations who

POISON IVY.—What is curious about poison ivy is this: Some persons can handle it, and even chew the leaves, with impunity, and never experienced any effect from it; while others will be badly poisoned by even walking among it, or in the vicinity where it grows. An efficacious remedy for this poison is said

Plans for the fortification of Paris include the construction, in the rear to Chatillon, of a great work parallel of Mont Valerien.

Facts and Fancies.

Freece is being rapidly wiped out. Six cotton factories hum in Alabama. Blue diamonds lined with white are re'd gentel.

The gamblers in San Francisco wear kites while dealing.

Memphis, Tenn., puts a tax of \$8.00 every five years on the city.

Blue jeans is what a Tex tobacco dealer calls the Indian in front of his place.

What is the difference between Johnny nard and a priver? Johnny loved and a priver don't.

The man who by mistake dressed his wife with croton oil, finds his new wig y comfortable and becoming.

The Saginaw (Mich.) valley produced in the last five years 3,311,383,719 of lumber and 3,328,915 barrels of

of coal refineries along the bank of the Kawasaw and Schuykill rivers. The flavor of the coal caught in them greatly deteriorated.

Maggie Mitchell¹ had forty years of and has been on the since ever since she was a child. Her husband, Mr. Dock in 1868, after fourteen years' triship, and has two children.

Kansas creek marksman was lately killed on a charge of assault with intent to kill. The man was charged if he had fired at the man intended to kill him, he would surely have hit it.

There are 25 students at the U. S. Navy school, 39 of whom were appointed. The present, 4 are naval apprentices, 3 Japanese students, one from the district of Columbia, and 160 from the rest of the country.

Fred, I said a father to his son, "I that you and your wife quarrel and angle every day." "Whoever told you father, was totally wrong," answered he, "I never quarrel with my wife."

Massachusetts, recently, Gloro was wading in which the bridegroom, a tower of nearly seven, married a lady from he said his former wife brought from her father's house and lived with her family as a daughter for forty years.

There would be no great scandal, says Mr. effe, a Parisian theatrical manager on witness stand, to write of an actress who, she said, was the wife of a judge he was badly legged; but supposing were to call the judge unlearned, the actress badly-legged, and there would be no scandal.

When a gentleman visited a theatre at Danville, Ct., the other night, in company with a young lady, and unconsciously vented his remarks on the actress, she, in reply, relating the situation, proceeded to take down the young man's back hair, and remove sundry locks of hair which she had taken from her person, without the formality of introduction. It is not stated who the wife's escort.

WISSE STROEN:—A lady in New York, of French parentage, bright, cheerful, and good, became the wife of an enterprising whose business called him to Paris regularly every summer. In his absence he left the house to rapid and the wife's relatives gave many shakes of the head when talking of the marriage. He was, however, very frank that he had been successful in his business, and had made a very good husband. On each return from Paris he brought her some nice little presents from the capital.

his, his eighth return, he surprised by placing in her hands a magnificent jewel, a diamond ring. "I have been less than seven or eight hundred dollars. Well might her bright sparkle, as they did, over the excited countenance of the girl. She tenderly around his neck and giving a soft, sweet kiss, she said: "Ah, a good, kind husband you are to me, and I shall never be parted from you, my dear." (with a roguish smile, "I wish you must have been this last time!" She knew him it was).

CRUEL. "SWEET," The Bangor one *Wingo* says a thirsty fellow entered the nearest saloon, and, after a while, and, approaching one of the waiters, in a mysterious manner, asked him could get something to drink. He said that he was in the firm and told that the firm had some adulterate oil on tap. The stranger's eyes were opened, and he took the oil from the cleaver, after a trip to the back

an amber-colored fluid. "Drink it," the policy may be in at any moment," cautioned the next man, and the singer, hastily following the advice, poured a couple mouthfuls of the liquid into the scene that ensued, can be imagined when we state that the "w" was old beef-pickle, as salt the "s" sea, with a "body" unequalled by

CHURCH MUSIC.—Mr. Spurgeon and Bishop Littlejohn both spoke at the annual convocations of the Protestant churches for music. The op stated recently that one church in diocese paid more money for music than for any other purpose, and that the churches were "giving up" for missions. And Spurgeon, in the use of a recent sermon, "came down" on those fashionable congregations who "are the people of the temple" or five-priced professional vocalists.

SON IVY.—What is curious about son ivy is this: Some persons can

plans for the fortification of Paris include the construction, in the rear of the city, of a great work parallel of the city walls, and the fortification of the city of Valerien.

MORAL IMPROVEMENT.—A meeting was held in Lincoln Hall, Weymouth, Sunday evening last, for the purpose of forming an organization for moral improvement. Remarks were made showing the need of such an organization, and it seemed to be the wish of most of those present, to take up the subject of temperance first. It is not intended, by any means, to restrict the subject to this alone, but to have the basis of union so broad that no friend of moral improvement will be excluded. All subjects pertaining to morals will be open for discussion, and without regard to sect or party, are invited to join and help on the movement.

The following constitution was adopted: We, the undersigned, hereby agree to unite ourselves into an organization for the purpose of aiding each other, and the people around us, in freeing themselves from the appetites and passions of the flesh, and cherishing to the detriment of their moral and spiritual improvement.

Article 1. The organization shall be called the **UNITED FRATERNITY OF WEYMOUTH**, and shall hold meetings at such times and places as the board of officers shall determine.

Article 2. The officers shall consist of President, Vice-President, Secretary, Treasurer, and seven Directors, who together shall constitute a board of officers, and hold their office until others are chosen.

The next meeting will be held Sunday evening, May 26th, at 7 1/2 o'clock, at which the officers will be elected.

J. W. ARMINGTON, Sec'y pro tem.

TEACHERS' ASSOCIATION.—The Norfolk County Teachers' Association will hold its annual meeting in Lincoln Hall, Weymouth, on Saturday, June 1st. The teachers of the county prize these meetings, feeling that they derive great benefit from them, and all will attend the benefit of gathering together from time to time to discuss the various subjects of interest to them. No class of public servants come nearer to the people than the public school teachers; for this reason the people should be ready and willing to support them in their part to fit themselves for their work. One of these instrumentalities is the County Convention. In order to make this as efficient as possible, the people of the place where the convention is held should do what they can to make it a success. The teachers will try to perform the intellectual part. Will the people throw open their doors to the scholars, and let them come from other places a cordial reception? We know that it will be some trouble to make the extra bed and prepare the extra plate. The good ladies may have to rise a little earlier to get the breakfast ready, and may become a little fatigued from the labor and excitement of the occasion. Consider whether the consciousness of having helped on a good cause, will not amply pay all effort. Let all in this place try to do what they can to aid and encourage the teachers in their work. Give them such a reception that they and their calling are appreciated.

ACCIDENT.—While engaged in superintending the manufacture of a steam digger in the blacksmith shop of Mr. South, at Weymouth Landing last Saturday, Mr. M. M. Hodgman, the inventor of the machine, had one of his feet badly injured, several bones being broken, by the falling of an iron bar.

AUCTION.—The furnishings of the Weymouth Hotel were sold at auction last Tuesday, and Mr. Wales will remove to Andover, Mass., where, as we are informed, he has purchased a farm of several acres, and will make that place his future residence.

CONSTANCY.—The constant school attendance of the two children of Mr. Oliver Burrell, of East Weymouth, is, we think, without parallel. From their commencement at the age of four years, to the present time, their ages being 14 and 16 years, they have never been absent a single day, with one exception—the son having truanted one session in his younger days.

REMOVAL.—Messrs. Nash & Radcliffe, grocers at Weymouth Landing, have vacated the store in which they have been located, and removed their stock to North Andover, where they intend to continue in the same business, while the vacated store will be occupied as a club-room by a company of young men.

REAL ESTATE SALE.—Sam'l Curtis sold at public auction, on Saturday last, sixteen out of fifty lots of land, on Front street and Walnut Avenue, belonging to Adoram Chapin. Nos. 5 and 6, Michael Ford, \$225 each; Nos. 7 and 8, Byron Hunt, \$170 each; Nos. 9 and 10, Arthur Cook, \$155 each; Nos. 11 and 12, Julia Donnovan, \$150 each; Nos. 13 and 14, Bradford Hunt, \$150 each; Nos. 44 and 45 (a part of these lots being in Brantree) Eugene Langley, \$180 each. The attendance was very large, and the prices obtained were satisfactory to the owner.

MATHEMATICAL PROBLEMS.—"I am 56 years old," said A. "I am one year older than I now am, four-sevenths of my age, diminished by four, would be equal to one-fourth of my age, increased by two. How old am I?"

"I," said C, "from my age you take three, extract the square root, multiply by seven, and add five times the result to the age, the sum will be twice my age." How old am I?"

FROST is still found in exposed northerly situations. We learn from Mr. Gerald, of the South Shore Railroad, that the laborers engaged in excavating a bank at Egypt station, on the Duxbury line, a few days since struck from the depth of four feet six inches, ice was found.

CHURCH IMPROVEMENT.—The work of raising and repairing the Union Church, of Brantree, has been commenced. Mr. Cavanaugh, of Brantree, has contracted to do the raising, for \$600.

DREDGING.—The channel of the Monaquon, above the bridge at East Brantree, is being dredged to the wharf of Capt. Shepherd, coal dealer.

DEATH.—The last of the veteran masters of the Hingham packets, Capt. Elijah Beal, deceased last week, at the age of 70.

FIRE.—An alarm of fire last Sunday afternoon at South Weymouth, called out the Extinguisher Co., with their machine, which was hauled over the bridge at Brantree, to the scene of the fire, which proved to be the buildings of Mr. John Moore, nearly opposite the Catholic Church. Some children had been playing in the barn, and it is a matter of regret that the hay, and so rapid was the progress of the flames that the house and stable were soon reduced to ashes. The loss of Mr. Moore is large, as he had nearly completed many improvements on the place, the value being estimated as high as \$6000, on which there was an insurance of \$1500 in Boston.

Brantree.

Mr. Editor.—According to promise, I transmit this week's issue of the County work in the first parish in Brantree—Rev. Dr. Storrs. During the past fifty-five years, together with historical information regarding the origin of the Sabbath School, as given by Mr. B. Vinton on Sunday, May 5th, the fifty-fifth anniversary of the formation of the School. First with regard to general information touching the origin of the Sabbath School, Mr. Vinton remarked that the first reliable information which comes down to us from the past, records the fact that the Sabbath School action to this subject alone, but to have the basis of union so broad that no friend of moral improvement will be excluded. All subjects pertaining to morals will be open for discussion, and without regard to sect or party, are invited to join and help on the movement.

The following constitution was adopted: We, the undersigned, hereby agree to unite ourselves into an organization for the purpose of aiding each other, and the people around us, in freeing themselves from the appetites and passions of the flesh, and cherishing to the detriment of their moral and spiritual improvement.

Article 1. The organization shall be called the **UNITED FRATERNITY OF WEYMOUTH**, and shall hold meetings at such times and places as the board of officers shall determine.

Article 2. The officers shall consist of President, Vice-President, Secretary, Treasurer, and seven Directors, who together shall constitute a board of officers, and hold their office until others are chosen.

The next meeting will be held Sunday evening, May 26th, at 7 1/2 o'clock, at which the officers will be elected.

J. W. ARMINGTON, Sec'y pro tem.

TEACHERS' ASSOCIATION.—The Norfolk County Teachers' Association will hold its annual meeting in Lincoln Hall, Weymouth, on Saturday, June 1st. The teachers of the county prize these meetings, feeling that they derive great benefit from them, and all will attend the benefit of gathering together from time to time to discuss the various subjects of interest to them. No class of public servants come nearer to the people than the public school teachers; for this reason the people should be ready and willing to support them in their part to fit themselves for their work. One of these instrumentalities is the County Convention. In order to make this as efficient as possible, the people of the place where the convention is held should do what they can to make it a success. ACCIDENT.—While engaged in superintending the manufacture of a steam digger in the blacksmith shop of Mr. South, at Weymouth Landing last Saturday, Mr. M. M. Hodgman, the inventor of the machine, had one of his feet badly injured, several bones being broken, by the falling of an iron bar.

AUCTION.—The furnishings of the Weymouth Hotel were sold at auction last Tuesday, and Mr. Wales will remove to Andover, Mass., where, as we are informed, he has purchased a farm of several acres, and will make that place his future residence.

CONSTANCY.—The constant school attendance of the two children of Mr. Oliver Burrell, of East Weymouth, is, we think, without parallel. From their commencement at the age of four years, to the present time, their ages being 14 and 16 years, they have never been absent a single day, with one exception—the son having truanted one session in his younger days.

REMOVAL.—Messrs. Nash & Radcliffe, grocers at Weymouth Landing, have vacated the store in which they have been located, and removed their stock to North Andover, where they intend to continue in the same business, while the vacated store will be occupied as a club-room by a company of young men.

REAL ESTATE SALE.—Sam'l Curtis sold at public auction, on Saturday last, sixteen out of fifty lots of land, on Front street and Walnut Avenue, belonging to Adoram Chapin. Nos. 5 and 6, Michael Ford, \$225 each; Nos. 7 and 8, Byron Hunt, \$170 each; Nos. 9 and 10, Arthur Cook, \$155 each; Nos. 11 and 12, Julia Donnovan, \$150 each; Nos. 13 and 14, Bradford Hunt, \$150 each; Nos. 44 and 45 (a part of these lots being in Brantree) Eugene Langley, \$180 each. The attendance was very large, and the prices obtained were satisfactory to the owner.

MATHEMATICAL PROBLEMS.—"I am 56 years old," said A. "I am one year older than I now am, four-sevenths of my age, diminished by four, would be equal to one-fourth of my age, increased by two. How old am I?"

"I," said C, "from my age you take three, extract the square root, multiply by seven, and add five times the result to the age, the sum will be twice my age." How old am I?"

FROST is still found in exposed northerly situations. We learn from Mr. Gerald, of the South Shore Railroad, that the laborers engaged in excavating a bank at Egypt station, on the Duxbury line, a few days since struck from the depth of four feet six inches, ice was found.

CHURCH IMPROVEMENT.—The work of raising and repairing the Union Church, of Brantree, has been commenced. Mr. Cavanaugh, of Brantree, has contracted to do the raising, for \$600.

DREDGING.—The channel of the Monaquon, above the bridge at East Brantree, is being dredged to the wharf of Capt. Shepherd, coal dealer.

DEATH.—The last of the veteran masters of the Hingham packets, Capt. Elijah Beal, deceased last week, at the age of 70.

FIRE.—An alarm of fire last Sunday afternoon at South Weymouth, called out the Extinguisher Co., with their machine, which was hauled over the bridge at Brantree, to the scene of the fire, which proved to be the buildings of Mr. John Moore, nearly opposite the Catholic Church. Some children had been playing in the barn, and it is a matter of regret that the hay, and so rapid was the progress of the flames that the house and stable were soon reduced to ashes. The loss of Mr. Moore is large, as he had nearly completed many improvements on the place, the value being estimated as high as \$6000, on which there was an insurance of \$1500 in Boston.

Our Legislative Letter.

The closing hours of the session were characterized by the noise and confusion that usually then prevails. By Friday, the 3d inst., it became evident that the end of the session was near at hand. The orders of the day were exhausted, and matters of disagreement between the two branches, it was hoped, might be satisfactorily adjusted without delay. The most experienced of our legislators prophesied an adjournment by Saturday, and on that day there was some talk of an evening session to finish up the work. But on a few bills, on which the Senate and House widely disagreed, compromises and conference committees failed, and the appointment of new committees to consider them was necessary. On the 4th inst., the House referred to increasing the salaries of District attorneys, on which Mr. Tirrell, of Weymouth, was appointed as one of the conference committee. The Senate finally passed a bill in relation to the punishment of juvenile offenders, which was reported, and passed, giving the Governor power to appoint justices of the peace in the several counties, who may be judges of District Courts, and shall have jurisdiction in such cases. Another was relative to the salaries of the Justices of the Peace at the State House, on which no agreement could be effected, and it was consequently killed. Another relative to the pay of Assistant Clerks in both branches, the House failing their compensation at \$750 each, the Senate amending by making the Assistant Senate Clerk, \$500. The House refused at first to concur, but finally yielded to its action. The facts of the case are that the Assistant Clerk in the House is a lady, who by her modesty and industry has won the respect of all the members, and has performed her duties with a highly creditable manner. There did not seem to be any reason why her compensation should not be equal to that of her associate in the Senate, but it was voted otherwise. Another was in relation to the salaries of clerks in the Secretary of State department, which was rejected. Another was one in reference to the Lowell railroad, authorizing the State to purchase and improve bridge facilities, the flats and waters of Charles river adjacent to their present bridge. An amendment was carried in the House, that the bill should not be reported until the 1st of July. The bill was hereafter amended to the general laws applicable to railroads in this State, which it is not amenable to now—being chartered by special act, and the date of the bill was finally reached, which provided that satisfactory compensation should be made to the Commonwealth, if the grant of the bill was accepted, aliphatic and hydrocarbons done by the tide waters displaced. Another was a bill authorizing the Eastern R. R. Corporation to extend their bridge facilities and adjacent to their present bridge, the flats and waters of Charles river adjacent to their present bridge. An amendment was carried in the House, that the bill should not be reported until the 1st of July. The bill was hereafter amended to the general laws applicable to railroads in this State, which it is not amenable to now—being chartered by special act, and the date of the bill was finally reached, which provided that satisfactory compensation should be made to the Commonwealth, if the grant of the bill was accepted, aliphatic and hydrocarbons done by the tide waters displaced. Another was a bill authorizing the Eastern R. R. Corporation to extend their bridge facilities and adjacent to their present bridge, the flats and waters of Charles river adjacent to their present bridge. An amendment was carried in the House, that the bill should not be reported until the 1st of July. The bill was hereafter amended to the general laws applicable to railroads in this State, which it is not amenable to now—being chartered by special act, and the date of the bill was finally reached, which provided that satisfactory compensation should be made to the Commonwealth, if the grant of the bill was accepted, aliphatic and hydrocarbons done by the tide waters displaced.

The following constitution was adopted: We, the undersigned, hereby agree to unite ourselves into an organization for the purpose of aiding each other, and the people around us, in freeing themselves from the appetites and passions of the flesh, and cherishing to the detriment of their moral and spiritual improvement.

Article 1. The organization shall be called the **UNITED FRATERNITY OF WEYMOUTH**, and shall hold meetings at such times and places as the board of officers shall determine.

Article 2. The officers shall consist of President, Vice-President, Secretary, Treasurer, and seven Directors, who together shall constitute a board of officers, and hold their office until others are chosen.

The next meeting will be held Sunday evening, May 26th, at 7 1/2 o'clock, at which the officers will be elected.

J. W. ARMINGTON, Sec'y pro tem.

TEACHERS' ASSOCIATION.—The Norfolk County Teachers' Association will hold its annual meeting in Lincoln Hall, Weymouth, on Saturday, June 1st. The teachers of the county prize these meetings, feeling that they derive great benefit from them, and all will attend the benefit of gathering together from time to time to discuss the various subjects of interest to them. No class of public servants come nearer to the people than the public school teachers; for this reason the people should be ready and willing to support them in their part to fit themselves for their work. One of these instrumentalities is the County Convention. In order to make this as efficient as possible, the people of the place where the convention is held should do what they can to make it a success. The teachers will try to perform the intellectual part. Will the people throw open their doors to the scholars, and let them come from other places a cordial reception? We know that it will be some trouble to make the extra bed and prepare the extra plate. The good ladies may have to rise a little earlier to get the breakfast ready, and may become a little fatigued from the labor and excitement of the occasion. Consider whether the consciousness of having helped on a good cause, will not amply pay all effort. Let all in this place try to do what they can to aid and encourage the teachers in their work. Give them such a reception that they and their calling are appreciated.

ACCIDENT.—While engaged in superintending the manufacture of a steam digger in the blacksmith shop of Mr. South, at Weymouth Landing last Saturday, Mr. M. M. Hodgman, the inventor of the machine, had one of his feet badly injured, several bones being broken, by the falling of an iron bar.

AUCTION.—The furnishings of the Weymouth Hotel were sold at auction last Tuesday, and Mr. Wales will remove to Andover, Mass., where, as we are informed, he has purchased a farm of several acres, and will make that place his future residence.

QUINCY TUFTS WILL.—Hon. James Humphrey, Chairman of the Weymouth Board of Selectmen, in behalf of the town appeared before Judge White, in Boston, on Monday last, on petition to have the will of Mr. Tufts confirmed. The will of Mr. Tufts, having been presented in the latter court, Judge White has reserved his decision in the case, but as the parties personally appeared, and as the will was presented in the court, it is probable that the will will be administered in Norfolk, and the town of Weymouth secure the tax—about \$250 in amount.

ENTERTAINMENT.—The young people of the Union Congregational Church, Weymouth, gave an entertainment on Thursday and Friday evenings last week, at Washington Hall, and will present two farces, the characters to be sustained by home talent.

MEMORIAL ADDRESS.—The Baptist church, Weymouth, will well last Sunday evening, by members of Post 58, G. A. R., and others, who listened with interest to the presentation of a memorial day. We are requested in behalf of the Post, to extend their thanks to the speaker for the timely and able address.

ELVATED.—The raising of the Union church has been successfully accomplished by Mr. Cavanagh, the contractor, and the work of grading in front is going on, the material for which is taken from the cellar.

REMOVED.—Mr. Perry, who has become so general a favorite, in his position as driver for Hodges Bakery, Quincy, has removed to the western part of the State, to engage in farming. He desires to return his hearty thanks to the customers who have favored him with liberal patronage, and wishes to add a word of commendation to his successor, Mr. Thomas, of Hanson.

BUILDING.—E. C. Bumpus, Esq., of Weymouth, has purchased a lot of land on Commercial street, on the high grounds opposite the Tufts estate, and has commenced the erection of a dwelling, which will cost about \$5000. The lot was purchased for \$1300. The example of our "Judge" will, we hope, soon be followed by others, and the beautiful eminence be crowned with tasteful buildings.

VALUABLE HORSE KILLED.—A valuable horse belonging to Henry Newton, Esq., of North Weymouth, was killed, on Monday last, by a car, while he was jumping over a picket fence, enclosing the yard of the owner, last Friday, when he fell on the pickets, which entered his belly, causing the horse to run out. Dr. Tirrell made an attempt to restore them to their place, but in vain, and the horse died soon after.

SPIRIT MANIFESTATIONS.—Officer Garret's exploits in the discovery of concealed liquor rival the boasted powers of Shakespeare's hero, who could "call spirits from the vasty deep." The absence of bottles and the presence of the other paraphernalia of liquor selling at Lufkin's saloon in East Weymouth, has been a first-class puzzle to our efficient officer for a long time, but he has now solved it in the last official call at that noted establishment. Where tumbler with odoriferous scent, and whiskey cannot be far off, and a rigid examination of the premises revealed the hiding place of the spirits, which were found in the casing of the elevator, the boarding swinging open on hinges and the space between these and the elevator, and the other party, now shelves, admitting of the concealment of the bottles, secured from uninitiated observers. The present occupant of the saloon has been in the business but a short time, and the sudden interruption of his spiritual pursuits struck him all aback, but if he becomes convinced by this head-flaw that navigation in distilled waters is a perilous business, and abandons the raphernalia, the official visit will not be without benefit.

DISTRICT COURT OF EAST NORFOLK. This Court that supercedes the jurisdiction of Trial Justices, and Justices of the Peace, in the towns of Weymouth, Cohasset, Randolph, Holliston, and Quincy, goes into effect Saturday, June 1st. It will be held every morning at nine o'clock at Revere Hall, Quincy. As the trains from the several towns reach there at this hour, the business of the court will be short, it is important for parties having anything to do with this court to be there at that hour. When there is more convenient, parties having complaints to make let better get an officer to make the complaint for them in court—and thus save one trip to court. Whenever a large number of complaints shall originate from any term, the court will hear the cases in the term to save expense and travel.

COMMANDEY EXCURSION.—The Knights from Philadelphia have met with a royal reception from their Boston brethren, a notable feature of which was a trip to Nantasket Beach on Tuesday afternoon, and a sumptuous dinner at the Rockland House. A large number of Masonic brethren in Weymouth and adjacent towns participated in the festivities of the occasion.

THE DREDGING OF THE MONAQUET from the bridge to Captain Sheppard's wharves, is nearly completed, some large boulders having been removed in the progress of the work. A straight channel has been cut to the depth of three feet of water, the expense of which, (about \$3000), has been assumed by Capt. Sheppard. He is extending the front line of his wharves several feet, to the new channel.

QUINCY.—The Patriot says that a horse railroad from Quincy village to the Point is being discussed. The County Commissioners have decided to lay out the new avenue from Wollaston to Quincy village.

GRANITE ENGINE CO., of West Quincy, ran three-fourths of a mile with their machine, and got a stream of water through 250 feet of hose in nine minutes from the time of starting.

ASTRONOMICAL INTELLIGENCE.—The appearance of the planet Mars, on the 15th of May, at 10:15, in the constellation of Orion. The planet Mars, on the 15th of May, at 10:15, in the constellation of Orion. The planet Mars, on the 15th of May, at 10:15, in the constellation of Orion.

THE INTERNATIONAL PEACE JUBILEE. 329 instruments, in addition to the celebrated foreign organizations which have been engaged, will form the grand orchestra at the Jubilee. 27 military bands have been engaged, and some 75 bands have been applied for admission. The chorus organizations are all full, and with the addition of celebrated soloists, an array of musical talent will be gathered within the walls of the Coliseum such as was never before assembled, and affording a musical sensation which will mark an epoch in the life of every attendant.

THE EIGHT-HOUR LEAGUE. at its session in Boston Wednesday, adopted a series of resolutions demanding legislation on the subject, one of the resolutions requiring eight hours to be made a legal day's work in absence of written agreement.

THE NORTH STAR. will be on the meridian (below the Pole) at 3:30 p. m.

Western Persecutions.—OVER THE PRAIRIE.—Six years ago this summer, I went over a prairie in Western Iowa, 24 miles, without passing any timber, and 30 miles without passing a house. A few days since, I attempted to travel the same route; but failed, got lost and wandered about for several hours before I could find out where I was. At the commencement of this journey, instead of cultivated fields, and happy homes, further on, the wilds of Nature lay around me in a sea of land, seemingly as boundless as the ocean, yet dotted here and there by the dwellings of hardy settlers, who, far from the busy haunts of men, had sought homes in the wilderness.

TEACHERS WANTED.—A week or two since Butler county, Iowa, was the scene of a tragedy. A teacher, named Mr. W. H. Emerson, Esq., at East Brainerd, was securing a high school for the summer term, and one which will commend his work to other residents who desire views of a similar kind.

PHOTOGRAPHIC.—E. Chamberlin, artist at Weymouth Landing, has photographed the summer residence of W. R. Emerson, Esq., at East Brainerd, securing a high school for the summer term, and one which will commend his work to other residents who desire views of a similar kind.

THE BROTHERS' SUPER-PHOSPHATE.—The German Gossling, Esq., of Weymouth, has been successful in his efforts to secure a patent for a new method of producing super-phosphate, which will be of great value to the farmers of this State.
